

SEACAP 4 SDG

Celebrating Achievements and Looking to the Future: Seacap 4 SDG Project's Final Issue

ENHANCING ENERGY RETROFITTING STRATEGIES IN MEDITERRANEAN CITIES

As we gather here for the final issue of our newsletter, we take a moment to look back at the milestones we've reached and the impact we've made. Over the past months, the Seacap 4 SDG Project has been a beacon of commitment and collaboration, driving sustainable development across our coastal communities. It has been a journey filled with remarkable achievements, challenges met with resilience, and the unwavering dedication of every member of our community.

We also turn our gaze towards the future, recognizing that our work is far from over. As we bid farewell to this newsletter, we know that our commitment to these global objectives is stronger than ever.

Join us in reliving the transformative moments of Seacap 4 SDG Project and thank you for being part of this remarkable journey.

Sincerely,

Seacap 4 SDG Project

TOGETHER, WE'VE
MADE A DIFFERENCE,
AND TOGETHER, WE
WILL CONTINUE TO
MAKE WAVES OF
POSITIVE CHANGE.

SEACAP 4 SDG UNVEILS INNOVATIVE SOLUTIONS AND TOOLS TO REDUCE ENERGY CONSUMPTION IN PUBLIC BUILDINGS

IN TOTAL 17 MOUS WERE SIGNED WITHIN THE SEACAP 4 SDG PROJECT, WHICH SHOWS THE HIGH **IMPACT** OF OUR PROJECT AND THE **INTEREST** GAINED ON LOCAL LEVELS IN FACH COUNTRY.

>>> THE FINAL CONFERENCE

The SEACAP 4 SDG project's final conference convened on September 6th, 2023, at the Arab Academy For Science, Technology, and Maritime Transport (AASTMT), with participants representing local and international institutions. The event featured a round table discussion titled "Towards green and sustainable Egyptian cities" fostering knowledge exchange and lively debates.

>>> SEACAP4SDG LIVING LAB

The SE(A)CAP Living Labs (SLLs) have been developed based on past experiences, adding an innovative approach with a special focus on enhancing collaboration between decision-makers academics. and stakeholders. In the framework of the project, different Local Living Lab sessions were organised among the partner countries, in order to support energy managers in planning and implementing innovative sustainable energy measures specifically targeted to public buildings.

Read more about the SLL

THE PROPOSED SE(A)CAPS IN 8 MEDITERRANEAN MUNICIPALITIES WILL LEAD TO SAVINGS UP TO 41,193 MWH AND 235,665 TONNESCO2.
